

Hello dear students!

I hope you are fine, studying at home and spending good time with your families in spite of the horrible situation that is scaring the whole world.

I'd love to explain the activities to you face to face, as it may be easier. But me, as the rest of the teachers are trying to do our best to keep you learning and working through technology, taking advantage of the good internet connection Uruguay has, as well.

Concerning the activities for this week (from 23rd to 27th of March), the first one is called "*Healthy vs. unhealthy life*", which you can complete on your computer, or print it and then complete it with pencil. As you prefer it will be OK, as long as you do the task.

The second activity is called "*American meals*". You have to read it with attention, and remember you can always use a dictionary if you need it. After reading it, you have to choose one of the foods there, and write the ingredients and recipe on your notebooks.

I wish you all a good day and a great week. I miss you already XD

See you soon, Antonella.
